

# Your Path to Transformation Starts Here

## Innovation & Insight

The Ardoq award-winning enterprise architecture platform and Slalom's deep industry expertise, you can understand your tech landscape, align IT to business strategy, improve enterprise agility and drive scalable innovation at the pace your business demands.

## Modern Foundations

Modernize your technology strategy with a platform that enables strategic decision making and empowers teams to understand the impact of change both now and in the future. Together, we'll help you unlock the full potential of your Business & Enterprise Architecture, positioning you for ongoing success.

## Focus on Outcomes

With Slalom and Ardoq you can align your Technology strategy to the business outcomes that matter most. Whether you're looking to reduce risk, improve operational efficiencies or fuel innovation and growth, we can help you connect the dots between Technology & EA techniques, execution and measurable business outcomes.

## Ardoq as an Accelerator

Our joint partnership enables Slalom to bring Ardoq, a leading EA platform, as part of their engagements to automate and **accelerate activities historically done in tools like PPT, XLS, Vision and Miro**. The results are faster time to value and deeper insights.

Application Portfolio Management & Rationalization

Design future state technical landscape

Managing transformation dependencies and value from strategy to execution

Business Capability Mapping: technology to operational functions

Current state tech landscape mapped to People, Data, and Processes

IT M&A integration

The **digital blueprint** of the world's biggest brands

ExxonMobil

MUFG

ABB

Carlsberg Group

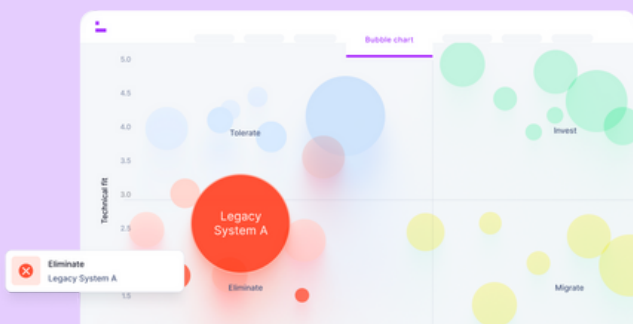

RIOT GAMES

Stanley Black & Decker

PRIMARK®

7 ELEVEN

## Real Business Results

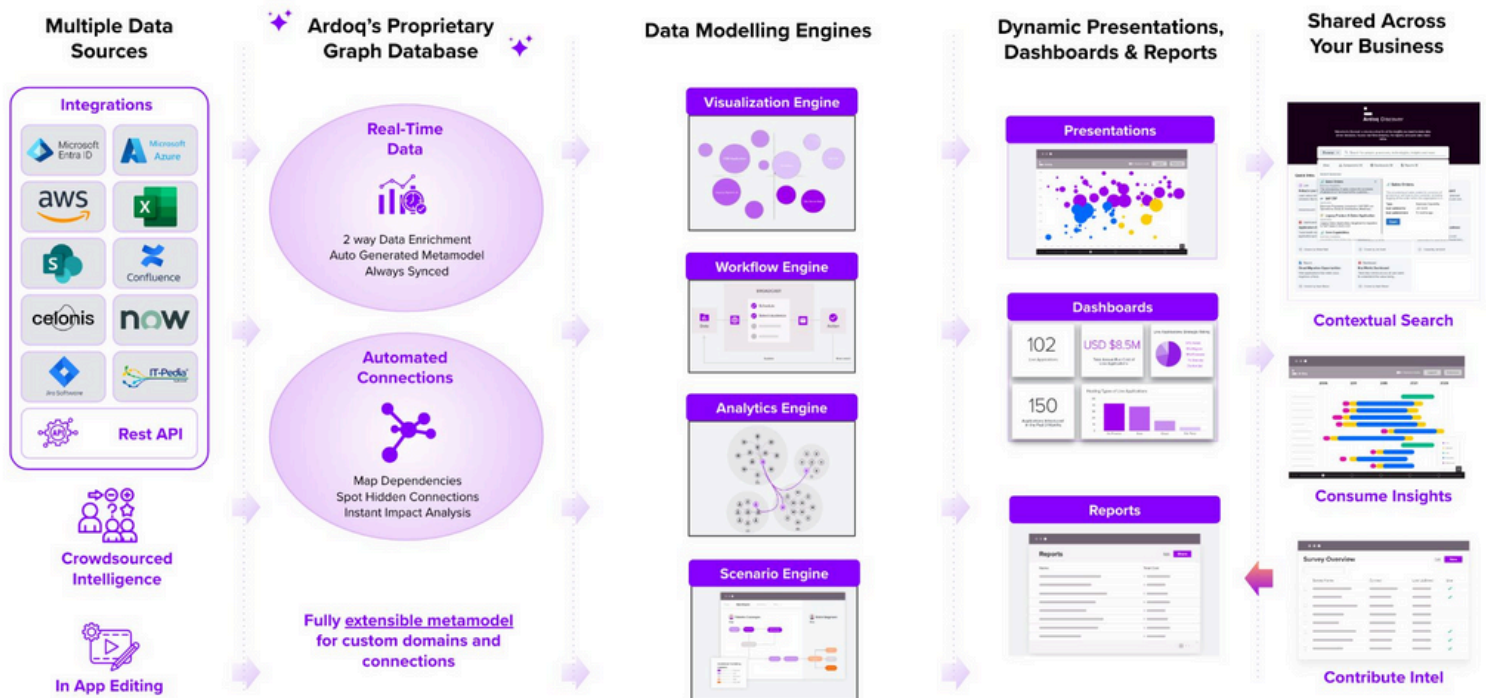

*“Ardoq helped us visualize everything and **hit the market faster**”*

Heidi Mattison, CTO  
Cabinetworks Group

# Say Hello To A Dynamic Data-Driven Tech Strategy

## How Ardoq Works

## The Undisputed Leader In Enterprise Architecture

We've identified \$600,000 in savings potential by rationalizing applications"

- Fred Hennige, Director of Enterprise Architecture, Jack in the Box
